No. 54 .- The 4th January 1910 .- In the year 1903 His Majesty's Secretary of State for India sanctioned as a provisional measure the institution of certain number of scholarships tenable by natives of India, in Europe or America. The purpose of these scholarships, was to provide for natives of India that higher technical education which might qualify them was to provide for natives of India that higher technical education which might quarty them to assist in promoting existing native industries and developing new industries, wherever this might be possible. Technical education for this purpose was defined as (a) the study of the scientific methods and principles underlying the practice of any handicraft, industry or profession, and (b) the application of these methods and principles to the handicraft, industry or profession in question. Law, medicine, engineering, forestry and veterinary science, being already provided for, were not included among the subjects to be studied by the holders of the technical scholarships, and agriculture was excluded from the scope of the scheme.

2. The Government of Iudia have decided to award, during the year 1910, one scholar-ship to each province, provided that the Local Government or Administration concerned has a suitable candidate to nominate, and that its recommendation is submitted in accordance with the principles which are stated in paragraph 5 below, and that the industry to be

studied is either already developed or in the process of development.

3. It may, however, happen that owing to the dearth of eligible candidates in certain provinces, two or more scholarships may on occasion be available for allotment to other provinces. If, therefore, a Local Government is in a position to recommend confidently more than one candidate, such recommendation may be submitted to the Government of India. In such cases the candidates need not necessarily be selected for the same industry.

As regards the current year, it has been decided, after consultation with representatives of the mercantile and industrial communities that one candidate will, if possible, be recommended for a scholarship in connexion with power loom weaving, finishing and dyeing. If a second scholarship is allotted to Bengal, a second candidate may be recommended in the same subject. The selection will depend largely on the character of the applications received.

5. The principles in accordance with which recommendations for scholarships will be submitted to the Government of India are as follow:—

(a) In making selections Government will bear in mind the fact that it will be necessary for the students to have a competent knowledge of English, or of the

language of any other country to which they may be sent.

(b) Government will also be guided by considerations of the capacity and intelligence of applicants, and of the practical interest shown by them in the industries selected, as also the assurance which they may afford that they will continue to devote themselves to the industries selected on their return in India. These being matters which cannot be decided by competition, it is to be understood that the scholarships are not to be regarded as prizes, for which every one has a right to claim an equal opportunity of competing.

(c) As a general rule, a scholar, before being nominated, should have received the best technical education available in the province in the particular industry which he proposes to study. The standard of this education differs in different industries, and each may be considered on its own merits. Even if the standard of technical education in a particular industry is low, the scholar may be nominated, if he has availed himself of the best facilities obtainable, and shown an interest in the industry selected.

(d) No age limit is fixed for scholars, but an age limit may, at the discretion of Government, be fixed for any particular scholarship for which it invites

applications.

6. The following are the conditions and terms on which the scholarships are tenable :-

(a) The value of the scholarships has been fixed at £150 a year, exclusive of fees payable to the institutions, where the scholars will study, and travelling expenses; but in special cases Government will consider proposals for increasing the amount of the coholarships.

(b) In ordinary circumstances the period for which a scholarship is tenable will be two years, but in special cases it may be increased to a third year, or, on the other hand, it may be reduced below even two years.

(c) The scholarships are tenable in foreign countries as well as in Great Britain, and are payable from the date on which a scholar reports his arrival in the country which he may have selected for the purpose of study.

- (d) The scholarships are tenable by persons who are natives of India within the meaning of section 6, Statutes 33 and 34 Vic., Cap. 3.
 (e) The scholars, while in England or elsewhere, will be under the supervision and control of the Secretary of State. The conditions under which they will hold the scholarships are given in the "Rules for Indian Government Technical Scholars in England," a copy of which is attached to this notification. tion.
- 7. It is essential, not only in the interests of the scholars themselves, but also in order to avoid unnecessary extensions of scholarships, that the beginning of the period of the scholar's residence in England should coincide with the opening of the academical session of the institution which they propose to enter. It has accordingly been arranged, in consultation with the Secretary of State, that scholars shall report themselves in England not later than the middle of September. It has also been ascertained that it is of no alvantage to them to reach England earlier than this, and that consequently they should not ordinarily leave India before the middle of August.

The Government does not guarantee to provide scholars with employment on their

return to India.

17.7

9. All applications for scholarships to be awarded during the year 1910 must reach the Director of Public Instruction on or before the 15th February 1910.

10. Applicants for scholarships must file certificates as to (1: moral character and antecedents, (2: educational qualifications, (3) knowledge of the language of the country in which the scholarship is to be held, and (4: physical fitness. Candidates must name the country to which they propose to proceed, and the course of scholarships. They should also state whether they have had any actual experience of the industry or industries for which the scholarships are offered.

If more than one duly qualified candidate is available, endeavour will be made to reserve one nomination for a Hindi-speaking candidate. If, however, no such caudidate is

forthcoming, some other qualified candidate who may apply will be recommended.

RESOLUTION.

The Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject, and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed

Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be.

COMMUNIQUE.

The Lieutenant-Governor has heard with deep distress of the death by the hand of an assassin, on the 24th January 1910, within the precincts of the High Court, of Khan Bahadur Maulvi Shamsul Alam, Deputy Superintendent of Police. The deceased officer had risen, in the course of thirty-four years' honourable service through the subordinate grades of the Police, to the rank to which recently he had been promoted. This, and the title which he held, were conferred on him in recognition of his able, courageous and unsparing efforts for the prosecution and repression of anarchic crime. The Lieutenant-Governor is assured that all thinking men will share his sorrow at the loss of a faithful public servant and his sympathy with those whom the crime has bereaved.

RESOLUTION-By the Government of India, Public Works Department.

By the Resolution of this Department, No. 675-694 E, dated the 24th April 1908, the pay of Civil Engineers, Imperial and Provincial, of the Executive and Assistant classes, was revised, a yearly incremental scale being substituted, with effect from the 8th March 1908, for the graded scale which up to then had been in force; and in paragraph 10 of the Resolution it was stated that orders would issue separately in regard to the pay to be drawn in future by Royal Engineer officers in the Executive and Assistant classes. General in Council has decided that a yearly incremental scale of pay shall be introduced for Royal Engineers also, and, with the approval of His Majesty's Secretary of State for India, is now pleased to rule that all officers of the Corps admitted permanently to the department between the 8th of March 1958 and the date of this Resolution shall draw pay, with effect from date of appointment, in accordance with the following scale, and that officers who entered the department before the 8th of March 1908 shall have the option of electing, within a period of six months from the date of these orders, to draw pay in accordance with this scale, the election taking effect from the 8th of March 1908:—.

For the purpose of calculating the pay to which an officer is entitled under this 2. For the purpose of calculating the pay to which an officer is entitled under this scale, the first year of service will be reckoned to commence two and-a-half years from the date of first commission. But the rate of pay so arrived at will not give an officer any claim to change the position he at present occupies in the seniority list of Executive and Assistant Engineers on which he is borne; nor is an officer whose position on first appointment was especially fixed, or whose promotion has been retarded in the past entitled by reason of length of service to claim a higher rate of pay under the new scale than that admitted to the Royal Engineer officer immediately above him on the seniority list. If the officer immediately above him is a Civil Engineer, the Royal Engineer may draw on the proposed new scale the pay for length of service corresponding to the pay drawn by the Civil Engineer on his own scale.

3. Officers who elect for the new scale, but are actually in receipt of salary and exchange compensation allowance which exceeds their pay under that scale, may continue to draw the difference as a personal allowance until such time as it is absorbed in the increments on the time-scale, after which pay will be regulated wholly by that scale. And, as in the case of Civil Engineers, officers who were promoted to Executive Engineer, 1st grade, on the 2th March 1908, may continue to draw the case of Civil Engineers, officers who were promoted to Executive Engineer, 1st grade, on the 2th March 1908, may continue to draw the case of Civil Engineers, officers who were promoted to Executive Engineer, 1st grade, on the case of Civil Engineers, officers who were promoted to Executive Engineer, 1st grade, on the case of Civil Engineers, officers who were promoted to Executive Engineer, 1st grade, on the case of Civil Engineers, officers who were promoted to Executive Engineer, 1st grade, on the case of Civil Engineers, officers who were promoted to Executive Engineers, allowance in or before the 8th March 1908, may continue to draw exchange compensation allowance in

addition to the new scale of pay.

4. The orders in the resolution of the 24th April 1908, in so far as they apply to Civil Engineers of the Imperial Service, will also apply to Royal Engineers, except in regard to the scale of pay to be drawn. Further, the pay above which an officer will not be eligible to rise, unless he holds a divisional charge or a charge which, in the opinion of the Local Government or Administration, is of equal importance, will be Rs. 900 a month instead of Rs. 800 the limit find for Civil Engineers of the Local Service. instead of Rs. 800, the limit fixed for Civil Engineers of the Imperial Service.

5. Orders as to the pay to be allowed to Royal Engineers who enter the department subsequent to the date of this resolution will be issued later.

Examination in rough working drawing for an Engineer's Certificate of Competency.

1. The regulations of the Local Government in regard to the qualifications of a candidate for an

engineer's certificate of competency are—

He must be able to make rough working drawings of the different parts of the engines and boilers.

He must be able to state the general proportions borne by the principal parts of the machine y to each

- other. In accordance with these clauses, a candidate for an engineer's certificate is required to make a rough working drawing of the parts specified. A mechanic who has been some years in charge of marine engines and boilers ought by this time to have familiarly in his mind the general construction of at least one set of engines and boilers, say that set he was last with. Fine drawing is not expected, and in the proportions of the parts a wide margin will be allowed; absurd dimensions will be failure in practical
- knowledge.

 3. The drawing must, however, he practically a working drawing, giving a sufficient number of views to show the parts fully—sections, plans, or elevations—just as the candidate would require to be supplied to him if he had to make the parts to the design of another person.

 4. A clear hand sketch showing the construction completely, and fully dimensioned, will be accepted if the cardidate prefers this alternative.

5. A portion only of the parts specified may be accepted in place of the whole, if that portion is sufficient to show that the candidate has a good practical idea of the construction of the parts, and a fair notion of their general proportions or dimensions.

6. Candidates are hereby cautioned not to put on paper what they have not fully considered, and deliberately intend to be understood, as their statement of what they know about the construction of

deliberately intend to be understood, as their statement of what they know about the construction of any part required.

7. The statements given in by a candidate may be in themselves, apparently, of little importance, but, as sample material from which the state of the candidate's knowledge of engines and boilers is to be interred, every detail which is glaringly inconsistent with a sound knowledge of the use of the part, or in which an essential consideration has evidently been overlooked, is an important element in the description which the candidate is giving of his own qualifications.

8. The candidate is advised not to begin more than he can clearly finish in the time allowed. An important object in this part of the examination is to ascertain whether the candidate can be trusted to mark all necessary dimensiors upon a sketch or a drawing. The test of this is, pratically, the making of the part from the sketch without having to supply additional dimensions, and without measuring the drawing. To prove this ability the candidate must fully dimension the parts shown in his sketch or drawing, notwithstanding that the parts may be correctly drawn to scale. A drawing is fully dimensioned when no part of it is left to the option of the party who is to work to the drawing.

9. To prevent misunderstanding, however, when the candidate has been led into showing more of the details than he has time fully to finish, he should name, in the statement on the other side, the particular parts which he has fully dimensioned.

10. All dimensions should have lines and darts, to indicate distinctly the points between which the dimensions are given.

dimensions are given.

11. Beware of writing cross dimensions upon centre lines, or upon longitudinal dimension lines. This is not an order, but a recommendation.

The candidate is not expected to design anything; he has merely to sketch or draw a something

with which he is expected to be already familiar.

13. Pencil in nothing after half-past 3: all the dimensions, the figures, and the darts must be inked in; employ the remaining time in examining the drawing and in taking in any figures which may have been before overlooked, and in checking the dimensions.

14. Make sure that you will have sufficient room on the drawing sheet to show all the necessary views. You can have another sheet of drawing paper if necessary. All the paper used must be forwarded with the drawing.

16. Fill in and sign the following statement :-

(Specimen.)

Subject for examination in rough working drawing.

(Read the foregoing general instructions.)

 Application for registration of improvements: to whom to be presented.

 Deputy Collector who may be specially appointed by Government to receive such application. The application shall, as far as practicable, be in the form (Form 1) specified in Schedule I appended to these rules, and the requisite imformation shall be submitted, along with the application, in the form of List A, appended to the said Form I.
- 13A. Alternative methods of filling up columns 12 to 16 of List A are provided. The first method is intended for cases in which only a small number of holdings are benefited, and the second for cases in which the whole village or a considerable proportion of the holdings is benefited. It will be open to the applicant, in the first instance, to select the method which appears to him more appropriate; but if he selects the second method, the revenue officer may, if he thinks fit, require List A to be filled up in the first method. If the revenue officer admits the application he will at the same time pass orders to the applicant to submit notices in Form 19 on tenants or villages concerned, in sufficient number to meet the requirements of these rules.
- 14. The officer receiving the application may either reject the application under section 80(3) or may admit it. If the application is admitted, a local inquiry will be held. A date will be fixed for that inquiry, and the applicant or his agent will be informed of this date. Notices in Form 19 will be sent to the tenants (if any) whose names are entered in column 12 of List-A. In addition a notice in Form 19 will be served in each village concerned. In this notice will be specified the date and approximate hour when the inquiry will be held in that village, and the tenants concerned therein will be directed to attend the inquiry. The notice will be published locally by proclamation and beat of drum, and will be fixed up in the presence of not less than two persons in some conspicuous place in the village. The service of the notice must be attested by at least two residents of the village (or, in the case of a bechappar village, of a contiguous village), on the back of the duplicate notice. Special care must be taken to ensure that with each notice is appended a correct copy of List A or the extracts therefrom which refer to the village or tenant addressed in the notice.

 The expense of sending and publishing notices under this rule and under rule 16 shall

The expense of sending and publishing notices under this rule and under rule 16 shall be borne by the applicant.

15. The Collector or subdivisional officer who received the application may transfer the case to the file of another officer empowered to receive such applications. If it is not so transferred, he may either make the local inquiry himself or he may direct it to be made by an officer not below the rank of Sub-Deputy Collector. When the officer who receives the application is not the Collector or a subdivisional officer, he may in a similar manner transfer the case or direct a local inquiry, with the consent of the Collector or subdivisional officer. This local inquiry will be held on the day and time specified in the notice. Such of the parties and their witnesses as attend and may desire to give evidence shall be examined, and such inspection of the land concerned as is considered necessary shall be made. In the record of this inquiry it shall be clearly stated which of the tenants were examined; and if any offered themselves for examination and were not examined, their names and the reasons for not examining them shall be recorded. The inquiring officer must make an inquiry in each village the lands of which are affected by the improvement.

- 16. The officer who has received the application shall then either forthwith, or, if further inquiry is necessary, after giving notice of such further inquiry to the parties concerned, and holding such inquiry or causing it to be held by an officer not below the rank of Sub-Deputy Collector, who is empowered to receive such application, proceed to pass orders on the case.
- 17. In passing orders he shall decide inter alia whether the improvement is of such a nature as to come within the meaning of section 76 of the Bengal Tenancy Act or not; whether the landlord is entitled to register it; whether it falls under sub-clause (e) of that section, and, if so, whether any enhancement of rent is being paid for the original improvement, and whether the cost of improvement and the date of completion have been correctly stated in the application.

Confirmation of order of refusal passed by officer lower in rank than Collector.

18. If an order refusing to register an improvement is passed by an officer lower in rank than the Collector of the district, such order shall not take effect till confirmed by the Collector.

MOTOR CAB RULES, 1910.

RULES FOR THE REGULATION OF MOTOR CABS WITHIN THE LIMITS OF THE TOWN AND SUBURBS OF CALCUTTA AND THE TOWN OF HOWRAH.

- No. 1729J.—The 9th April 1910.—In exercise of the powers conferred by section 3 of the Bengal Motor Car and Cycle Act, 1903 (Bengal Act III of 1903), and in addition to the Rules issued under Notification No. 1180J.D., dated the 22nd June 1908, hereinafter called the Motor Car Rules, 1908, the Lieutenant-Governor is pleased to make the following Rules for regulating the use of motor cabs in the Town and Suburbs of Calcutta and the town of Howrah:—
- (1) These rules may be called the Motor Cab Rules, 1910, and shall be read as Part IV of the Motor Car Rules, 1908.
- (2) For the purpose of these rules a motor cab means a light motor car as defined in the Motor Car Rules, 1908, used for the purpose of standing or plying for hire in any street or public place.
- (3) On the registration of a motor car as a motor cab, a certificate of registration shall be granted by the Commissioner of Police in the form given in Schedule I to these Rules.
- (4) Notwithstanding anything to the contrary in sub-clause (3) of Rule 2 in Part II of the Motor Car Rules, 1908, the fee payable for the registration of a motor car intended for use as a motor cap shall be Rs. 32, and no fee shall be charged for the registration of other motor cabs of the same type belonging to the same owner, provided the owner certifies in writing to the Commissioner of Police that such motor cabs are his property and conform in every respect to the type of the motor cab already registered.
- (5) A license to drive a motor cab shall be in the form given in Schedule II to these rules, and the rules therein contained shall be read as a part of these rules.
- (6) An applicant for a driver's license under these rules shall, before receiving such license, satify the Commissioner of Police that he is acquainted with the principal places and streets in and around Calcutta and Howrah, that he has a thorough knowledge of the prescribed rates for hire, and that he is in all respects a fit person to be the driver of a motor cab.
- (7) The license of a driver may be cancelled or suspended or otherwise dealt with by the Commissioner of Police for any breach of these rules.
- (8) No motor car shall be used as a motor cab unless fitted with a taximeter or approved mechanical device to which the seal of the Commissioner of Police has been affixed for automatically and visibly registering on each occasion the fare to be charged according to the rates for distance or time or a combination of distance and time.

Every taximeter shall be fitted with an indicator or handle in the form of a flag on which shall be printed the words " for hire". The taximeter shall be so constructed that when the indicator is vertical the taximeter shall be out of action. Such indicator shall be so placed as to be clearly visible to any person outside of and in front of the vehicle, and to the hirer when inside.

The vertical position indicates that the vehicle is available for hire, and no driver shall without reasonable excuse refuse to accept a fare when the indicator is in the vertical position.

Any owner, driver, attendant or other person who shall break or tamper in any way with the seal or mark placed on the taximeter, or who shall, with intent to deceive, tamper with the taximeter or the driving mechanism thereof, shall be deemed to have committed a breach of this rule.

- (9) In every motor cab there shall be available for the inspection of customers a list of rates, and the fare charged for the hire of the motor shall not exceed the maximum fare calculated according to the scale of the rates set forth in the list as may be applicable.
- (10) The driver of every motor cab shall, as soon as he is hired and no sooner, set the taximeter in motion, and upon the termination of the hiring shall immediately stop the same. If he neglect or fail to do so, he shall be deemed to have committed a breach of this rule. But if a motor cab is called from a garage or a stand to take up a passenger at any place less than 500 yards from the garage or stand, the taximeter shall not be set in motion until the motor cab shall arrive at such place and be ready to take up the passenger. Provided that in the event of a motor cab whilst hired being unable to proceed from any mechanical derangement or tyre failure, either temporarily or otherwise, the driver shall at

once stop the mechanism of the taximeter as against the hirer and shall not restart the same until such time as the defect is remedied.

- (11) A driver of a motor cab shall, in the absence of reasonable cause to the contrary, proceed to the destination named by the hirer by the shortest and quickest route.
- (12) The brakes shall, as far as possible, be so affixed as to be capable of easy adjustment. At least one brake shall be so made as to be applied by the foot of the driver, and at least one shall act directly upon the road wheels.
- (13) All brake and steering connections secured with bolts shall have such bolts secured with nuts, the same to be locked or pinned.
- (14) Every precaution shall be taken by the owner to see that all parts of the mechanism of the car are periodically inspected and kept in proper working order and a register shall be kept of such inspections in a convenient form giving the particulars shown in Schedule III to these Rules. This register shall be open at any reasonable time to the inspection of the Commissioner of Police or any person duly authorized by him in that behalf. Any failure to maintain this register or to produce it when called for by lawful authority, shall be deemed to be a breach of this rule.
- (15) No oil shall be allowed to drop upon the roadway, and where a tray or undershield is fixed below the mechanism of the car for the purpose of preventing this or for any other purpose, such tray or undershield shall be so placed or constructed that no petrol from the tank, supply pipe, or carburettor can collect therein.
- (16) Tanks for petrol must be so placed that any overflow shall not fall on to nor soak into cushions, upholstery or floor mats in or about the body, but the filling nozzle shall be brought to some point outside the body. No petrol shall be poured into the tank whilst the engine is running or whilst any lamp is burning in or on any portion of the car.
- (17) Every motor cab shall have at least one driving wheel fitted with an approved means of preventing or limiting side slip and shall carry at least one spare inflated tyre and rim or other approved device which can, if necessary, be quickly fitted to any wheel.
- (18) Every motor cab shall be provided with a means of communication between passenger and driver.
- (19) Where acetylene or other gas is used to light the carriage, the cylinders or vessels which contain the gas or in which it is generated, must be fixed outside in such a position as to minimize the danger of accidental ignition.
- (20) No printed or written matter other than the sanctioned rates for hire or these rules shall appear on the inside or outside of a motor cab or be carried by way of advertisement.
- (21) The doors, windows, seats, roof, springs, wheels, cushions, linings, panels, etc., and all furniture and appointment of a motor cab shall be in proper order and repair, the paint and varnish in good condition and the inside perfectly clean. The floor shall be covered with a mat of rubber, coir or other suitable material.
- (22) The Commissioner of Police may prohibit the use of a motor cab which is in his opinion unfit to ply for hire, until such time as the defects are remedied to his satisfaction.

DRAFT

BULES FOR REGULATING THE USE OF MOTOR CABS IN THE TOWN AND SUBURBS OF CALCUTTA AND THE TOWN OF HOWRAH.

In exercise of the powers conferred by section 3 of the Bengal Motor Car and Cycle Act, 1903 (Bengal Act III of 1903), and in addition to the Rules issued under Notification No. 1180J.D., dated the 22nd June 1908, hereinafter called the Motor Car Rules, 1908, the Lieutenant-Governor is pleased to make the following Rules for regulating the use of motor cabs in the Town and Suburbs of Calcutta and the town of Howrah:—

- (1) These rules may be called the Motor Cab Rules, 1910, and shall be read as Part IV of the Motor Car Rules, 1908.
- (2) For the purpose of these rules a motor cab means a light motor car as defined in the Motor Car Rules, 1908, used for the purpose of standing or plying for hire in any street or public place.
- (3) On the registration of a motor car as a motor cab, a certificate of registration shall be granted by the Commissioner of Police in the form given in Schedule I to these Rules.
- (4) Notwithstanding anything to the contrary in sub-clause (3) of Rule 2 in Part II of the Motor Car Rules, 1908, the fee payable for the registration of a motor car intended for use as a motor cab shall be Rs. 32, and no fee shall be charged for the registration of other motor cabs of the same type belonging to the same owner, provided the owner certifies in writing to the Commissioner of Police that such motor cabs are his property and conform in every respect to the type of the motor cab already registered.
- (5) A license to drive a motor cab shall be in the form given in Schedule II to these rules, and the rules therein contained shall be read as a part of these rules.
- (6) An applicant for a driver's license under these rules shall, before receiving such license, satify the Commissioner of Police that he is acquainted with the principal places and streets in and around Calcutta and Howrah, that he has a thorough knowledge of the prescribed rates for hire, and that he is in all respects a fit person to be the driver of a motor cab.
- (7) The license of a driver may be cancelled or suspended or otherwise dealt with by the Commissioner of Police for any breach of these rules.
- (8) No motor car shall be used as a motor cab unless fitted with a taximeter or approved mechanical device to which the seal of the Commissioner of Police has been affixed for automatically and visibly registering on each occasion the fare to be charged according to the rates for distance or time or a combination of distance and time.

Every taximeter shall be fitted with an indicator or handle in the form of a flag on which shall be printed the words "for hire". The taximeter shall be so constructed that when the indicator is vertical the taximeter shall be out of action. Such indicator shall be so placed as to be clearly visible to any person outside of and in front of the vehicle, and to the hirer when inside.

The vertical position indicates that the vehicle is available for hire, and no driver shall without reasonable excuse refuse to accept a fare when the indicator is in the vertical position.

Any owner, driver, attendant or other person who shall break or tamper in any way with the seal or mark placed on the taximeter, or who shall, with intent to deceive, tamper with the taximeter or the driving mechanism thereof, shall be deemed to have committed a breach of this rule.

- (9) In every motor cab there shall be available for the inspection of customers a list of rates, and the fare charged for the hire of the motor shall not exceed the maximum fare calculated according to the scale of the rates set forth in the list as may be applicable.
- (10) The driver of every motor cab shall, as soon as he is hired and no sooner, set the taximeter in motion, and upon the termination of the hiring shall immediately stop the same. If he neglect or fail to do so, he shall be deemed to have committed a breach of this rule. But if a motor cab is called from a garage or a stand to take up a passenger at any place less than 500 yards from the garage or stand, the taximeter shall not be set in motion until the motor cab shall arrive at such place and be ready to take up the passenger. Provided that in the event of a motor cab whilst hired being unable to proceed from any mechanical derangement or tyre failure, either temporarily or otherwise, the driver shall at once stop the mechanism of the taximeter as against the hirer and shall not restart the same until such time as the defect is remedied.
- (11) A driver of a motor cab shall, in the absence of reasonable cause to the contrary, proceed to the destination named by the hirer by the shortest and quickest route.
- (12) The brakes shall, as far as possible, be so affixed as to be capable of easy adjustment. At least one brake shall be so made as to be applied by the foot of the driver, and at least one shall not directly upon the road wheels.
- (13) All brake and steering connections secured with bolts shall have such bolts secured with nuts, the same to be locked or pinned.
- (14) Every precaution shall be taken by the owner to see that all parts of the mechanism of the car are periodically inspected and kept in proper working order and a register shall be kept of such inspections in a convenient form giving the particulars shown in Schedule III to these Rules. This register shall be open at any reasonable time to the inspection of the Commissioner of Police or any person duly authorized by him in that behalf. Any failure to maintain this register or to produce it when called for by lawful authority, shall be deemed to be a breach of this rule.
- (15) No oil shall be allowed to drop upon the roadway, and where a tray or undershield is fixed below the mechanism of the car for the purpose of preventing this or for any other purpose, such tray or undershield shall be so placed or constructed that no petrol from the tank, supply pipe, or carburettor can collect therein.
- (16) Tanks for petrol must be so placed that any overflow shall not fall on to nor soak into cushions, upholstery or floor mats in or about the body, but the filling nozzle shall be brought to some point outside the body. No petrol shall be poured into the tank whilst the engine is running or whilst any lamp is burning in or on any portion of the car.
- (17) Every motor cab shall have at least one driving wheel fitted with an approved means of preventing or limiting side slip and shall carry at least one spare inflated tyre and rim or other approved device which can, if necessary, be quickly fitted to any wheel.
- (18) Every motor cab shall be provided with a means of communication between passenger and driver.
- (19) Where acetylene or other gas is used to light the carriage, the cylinders or vessels which contain the gas or in which it is generated, must be fixed outside in such a position as to minimize the danger of accidental ignition.
- (20) No printed or written matter other than the sanctioned rates for hire or these rules shall appear on the inside or outside of a motor cab or be carried by way of advertisement.
- (21) The doors, windows, seats, roof, springs, wheels, cushions, linings, panels, etc., and all furniture and appointment of a motor cab shall be in proper order and repair, the paint and varnish in good condition and the inside perfectly clean. The floor shall be covered with a mat of rubber, coir or other suitable material.
- (22) The Commissioner of Police may prohibit the use of a motor cab which is in his opinion unfit to ply for hire, until such time as the defects are remedied to his satisfaction.
